Callture now offers phone numbers from 39 countries

Toronto, Ontario – July 14, 2006 – Callture Inc., an integrated telecommunications company based in Mississauga, Ontario, Canada, is now offering DID numbers from 39 countries.

“Callture’s SIP-based converged platform allows the numbers to be used for multiple functions,” said Anton Mendoza, VP of Wholesale Solutions. “They can be provisioned as calling card access numbers, call-forwarding numbers, voip numbers or virtual numbers.”

Callture’s international DIDs and toll free numbers are an integral part of its IP platform, and are strategically important for a number of reasons”, adds Mendoza, “Callture has been dealing with international markets for over 8 years, and includes wholesale partners from across the globe. Similarly, most of our products include a DID or a toll free number. Our voip services, virtual numbers and virtual PBX products, can now be packaged and expanded globally”.

The following is the list of countries where Callture offers local numbers presence:

**ARGENTINA
AUSTRALIA

About Callture:

Callture is a 2004 spin-off from Telcan Inc. (www.telcan.net), a company founded in 1997 as discount long distance provider. Callture has evolved into an Application Service Provider of internet telephony and billing solutions.

Callture provides the complete outsourcing for service providers to launch their own voice services and ecommerce applications. The services include global phone cards, unified communications, enhanced toll free numbers, click-to-call service, virtual PBX services and VoIP services.

Callture uses its highly skilled workforce to facilitate the in-house development of its products and web applications. It delivers a converged platform that runs multiple services on the same PIN, back by 24/7 customer support.
